0004044	PRS™ (Parasite Recovery System), Filtration Units only
0004049	Centrifuge Tubes and Caps

SDS are developed for Alpha-Tec Systems, Inc manufactured products that contain specific quantities of hazardous components, as specified by the Occupational Safety and Health Administration (OSHA) regulations CFR 29, 1910 1200, Hazard Communication Standard.

It is recommended that you maintain SDS in the event you receive requests for them from your customers, employees, or regulatory agencies, as required by the standard and applicable state "Right-to-Know" laws.

Good laboratory practices, safety procedures and normal precautions in handling and storage of all products are recommended to provide adequate protection to the skilled laboratory professional. If applicable, refer to the product's Technical Insert for additional information.
